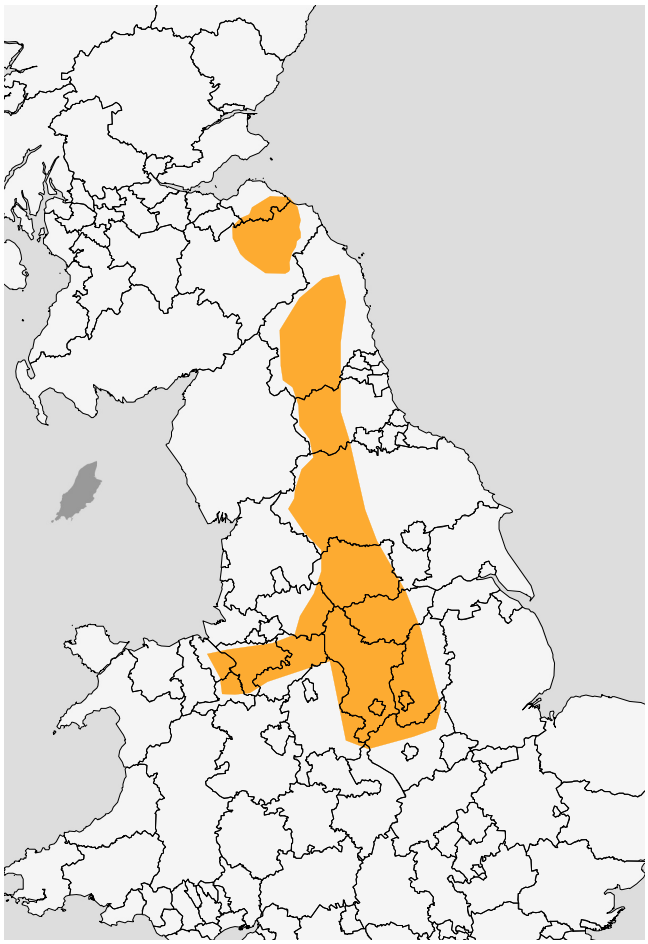
Rain

Between
12:00 Fri 20 Oct 2023 and
06:00 Sat 21 Oct 2023



Persistent heavy rain brings the likelihood of some flooding and disruption.

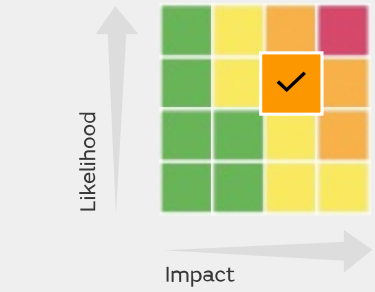
What to expect

- Homes and businesses are likely to be flooded, causing damage to some buildings
- Fast flowing or deep floodwater is possible, causing danger to life
- A possibility that some communities will be cut off by flooded roads
- Delays and some cancellations to train and bus services are likely
- Spray and flooding probably leading to difficult driving conditions and some road closures
- Power cuts and loss of other services to some homes and businesses possible

Further details

Following on from wet weather on Thursday, a further spell of persistent and at times heavy rain will affect parts of southeast Scotland and northern England during Friday, lasting into early Saturday. Widely 40-60 mm of rain is likely to fall, but the east-facing high ground from southeast Scotland to the Cheviots, south to the Peak District may see between 80 and 120 mm of rain locally.

Strong easterly winds may exacerbate the impacts of the heavy rain.



Medium likelihood of medium impacts
